

A Treatise on Differential Equations Supplementary Volume Volume 2

Filesize: 1.92 MB

Reviews

This ebook is very gripping and intriguing. I have got read through and i also am confident that i will gonna read through yet again again down the road. Its been written in an extremely straightforward way and it is merely right after i finished reading this book through which actually altered me, alter the way i really believe.

(Noble Hagenes)

A TREATISE ON DIFFERENTIAL EQUATIONS SUPPLEMENTARY VOLUME VOLUME 2

To save **A Treatise on Differential Equations Supplementary Volume Volume 2** PDF, remember to follow the button listed below and save the ebook or gain access to other information which are have conjunction with **A TREATISE ON DIFFERENTIAL EQUATIONS SUPPLEMENTARY VOLUME VOLUME 2** ebook.

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 42 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1865 edition. Excerpt: . . . then passes on to the general theory. General Theory. 2. Given an equation of the form $s f(x_1, x_2, \dots, x_n) + a_1 x_1 + a_2 x_2 + \dots + a_n x_n$, the number of arbitrary constants a_1, a_2, \dots, a_n involved being equal to the number of the independent variables x_1, x_2, \dots, x_n , we obtain by differentiation and elimination of the constants a partial differential equation of the first order. Of this the proposed equation is said to constitute a complete primitive. The form of the above process which it seems best, as throwing light upon the inverse problem of deducing the complete primitive from the partial differential equation, to employ, is the following. Let the given primitive, solved with respect to one of the arbitrary constants a_1 be presented in the form $(x_1, x_2, \dots, x_n, z, a_2, \dots, a_n) = 0$ (1). Differentiating with respect to each of the independent variables we have a system of n equations of the forms These n equations enable us first to eliminate the $n-1$ constants a_2, a_3, \dots, a_n , and so deduce the partial differential equation sought in the form secondly to determine the $n-1$ constants as functions of $a_1, x_1, x_2, \dots, x_n, z$, p_1, p_2, \dots, p_n in the forms As the system formed of these $n-1$ equations, together with the previous one, is merely another form of the system (2) obtained by directly differentiating the primitive, it...
