Reviews

A brand new eBook with a new standpoint. I have got read through and i also am confident that i will gonna read again once again down the road. Once you begin to read the book, it is extremely difficult to leave it before concluding.

(Miss Shannon Hilll V)

QUEERING REPRODUCTION: ACHIEVING PREGNANCY IN THE AGE OF TECHNOSCIENCE

Duke University Press. Paperback. Book Condition: new. BRAND NEW, Queering Reproduction: Achieving Pregnancy in the Age of Technoscience, Laura Mamo, Originally developed to help heterosexual couples, fertility treatments such as in vitro fertilization and sperm donation have provided lesbians with new methods for achieving pregnancy during the past two decades. "Queering Reproduction" is an important sociological analysis of lesbians' use of these medical fertility treatments. Drawing on in-depth interviews with lesbians seeking to get pregnant - as well as specialists working in sperm banks, fertility clinics, and midwifery practices - Laura Mamo describes how reproduction has become an intensely medicalized process for lesbians, transforming them into patients more often due to their sexual identities than because of their physical conditions. Mamo argues that this medicalization of reproduction has begun to shape queer subjectivities in both productive and troubling ways: by destabilizing the assumed link between heterosexuality and parenthood while also reinforcing traditional, heteronormative ideals about motherhood and the imperative to reproduce. Mamo provides an overview of a shift within some lesbian communities from low-tech methods of self-insemination to a reliance on outside medical intervention and fertility treatments. Considering the issues facing lesbians who become parents through assisted reproductive technologies, Mamo explores questions about the legal rights of co-parents, concerns about the genetic risks of choosing an anonymous sperm donor, and the ways decisions to become a parent affects one's sexual and political identities. In doing so, she investigates how lesbians navigate the medical system with its requisite range of fertility treatments, diagnostic categories, and treatment trajectories. Combining moving narratives and insightful analysis, "Queering Reproduction" reveals how medical technology reconfigures social formations, individual subjectivity, and notions of kinship.
