

Test Talk: Integrating Test Preparation into Reading Workshop

Filesize: 2.69 MB

Reviews

It is one of the most popular ebooks. I have studied it and I am certain that I am going to likely read it again yet again in the future. I am happy to inform you that this is actually the greatest ebook I actually have studied inside my very own life and might be the best ebook for possibly.

TEST TALK: INTEGRATING TEST PREPARATION INTO READING WORKSHOP

Stenhouse Publishers. Microfilm. Book Condition: new. BRAND NEW, Test Talk: Integrating Test Preparation into Reading Workshop, Glennon Doyle Melton, Amy H. Greene, Under No Child Left Behind, nearly every teacher faces a high-stakes balancing act; managing the often incompatible responsibilities of teaching students meaningfully or preparing them for standardized tests. Through their experiences teaching at a school that struggled to meet state test standards driven by NCLB, authors Amy Greene and Glennon Melton discovered a way to raise scores without compromising their strong beliefs about good teaching and learning. In Test Talk, Amy and Glennon share their story and their proven approach. This compelling book shows that teachers don't have to choose between best practice teaching and test preparation; effective test-taking strategies can be integrated into authentic reading instruction. The authors demonstrate how to improve performance on tests without resorting to "teaching to the test," mnemonic devices, or other gimmicks. Instead, they focus on encouraging student readers to explore tests as a specific genre containing unique language, format, and cues. Concise and easy-to-use, Test Talk includes lesson plans and practice passages, as well as sample questions and suggested language to use during lessons. Throughout the book, classroom vignettes show how seamlessly one can weave the test genre into reading workshop and connect those specialized skills to more general reading strategies. It is an invaluable resource for any teacher who struggles with how to prepare kids for tests without sacrificing real teaching and learning.
