Hodder Headline Australia Pty. Ltd., London United Kingdom, 2003. Soft Cover. Book Condition: New. No Jacket. Reprint. 298 pages index biblio colour and b/w illustrations - Explains esoteric secrets of the sacred solar science encoded in the massive army of terracotta warriors that guards the tomb of Chinese emperor Chin Shi Huangdi - Decodes the farewell message of the first emperor of China concealed more than 2,000 years ago in the 8,000 terracotta warriors that guard his tomb - Shows the spiritual principles of this sacred solar science and its remarkable insights into heaven, hell, and the immortality of the soul When the first emperor of unified China, Chin Shi Huangdi, felt his death approaching, he decreed that he be entombed within a pyramid and that his tomb be protected by an immortal army of terracotta soldiers. In 1974 archaeologists discovered the first of more than 8,000 life-size terracotta warriors, each weighing half a ton, buried circa 220 B.C.E. near this emperors pyramid tomb. Maurice Cotterell shows how Shi Huangdi--like the pharaoh Tutankhamun, the Mayan lord Pacal, and Viracocha in Peru--was a keeper of the sacred solar science of the ancients, a science that included a sophisticated understanding of the effect of the sun on earthly affairs, fertility rates, and personality. The keepers of this science taught that the soul was immortal and was destined to transform into star energy or be reborn on Earth, depending on an individuals spiritual progress in his or her lifetime. Using his unique understanding of how and why ancient civilizations encoded this extraordinary knowledge, Cotterell decodes the emperors farewell message concealed in the terracotta warriors--a message that reveals the true purpose of life and the imperishable nature of the soul.
