

Fossil Discoveries Disprove Evolution Beyond a Doubt: The Most Compelling Evidence Yet That Evolution Never Happened

By MR Josh Greenberger

Createspace, United States, 2012. Paperback. Book Condition: New. 226 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.This book shows how the very fossil record that scientists often present as proof of the validity of the theory of evolution proves the precise opposite. Fossils are excellent laboratory experiments on a grand scale that assess what happened to life in the past. And they prove beyond any question that the emergence and progression of life did not occur in any way remotely resembling what is depicted by the theory of evolution. This may be a difficult pill for some people to swallow, but it s the facts that should dictate what science is. This book deals with provable facts, not unverifiable conjecture.
