It does so by focussing on one of the most influential outgrowths of globalisation: the digital revolution and the thereof resulting emergence of social media. Instead of carrying out a general approach the analysis will focus on two selected countries, namely Egypt and Bahrain. Although trying to find an answer to the well known question if the Arab revolts were or weren t a social media revolution the present paper tries to concretise this initial question in splitting it into sub-question which reflect the three possible meanings it implies: First, did the Arab revolts start in social media Second, was social media a means to the end for the Arab revolts Last, was social media the main venue of the revolts 16 pp. Englisch.
